Dear Madam, Dear Sir,

I am writing in the name of Mr. Phillip Fuss, manager of the soon-to-be IoT Hub in Exeter. For the past two years, Mr. Fuss has been working on the development of the Hub, bringing together designers, developers, engineers, and companies of all sizes to meet the needs of the growing IoT market.

The main purpose of creating such a cluster and business accelerator is to enable the fast growth needed by innovative enterprises, from start-ups to multinationals. Project owners take an idea for a connected object and manufacture it into several viable products. The Hub is more than an incubator, and a Fab Lab, it is a ground-breaking concept that hastens time-to-market and facilitates every step of the way.

This project is an important one for the development of the electronics industry in the west of England, and so we are keen to have international partners to share with us their thoughts and suggestions to make it the most central hub of all.

For more details, please look at the attached document, or on our website: www.lotHub.com.

We plan to organize a gala evening at the Hubert Hotel next March to celebrate the opening of the Hub, and we will be delighted if you can participate. I will inform you in due course.

Please do not hesitate to contact me if you wish any further information.

Yours sincerely,

A.T. East

Communications Manager
